

PRODUCT GUIDE

2021

<p>1% Hydrocortisone Leave on Conditioner</p>	<p>For the adjunctive symptomatic management of corticosteroid-responsive dermatoses in dogs, cats, and horses. Chitosan is a natural biopolymer that provides a protective film on the skin. The protective film reinforces the hydrating and restoring effects of the formulation and helps protect the skin against damage from the environmental factors. <i>Available in 8oz. Bottle.</i></p>
<p>Aloe Oatmeal Shampoo</p>	<p>A natural colloidal oatmeal-based soap-free shampoo formulated to remoisturize sensitive and/or dry skin of dogs, cats, and horses. Ceramide III in the formulation helps support healthy skin. Can be used safely with topical flea applications. Aloe Oatmeal Shampoo helps combat skin irritation and promotes healing. <i>Available in 16oz. Bottle or Gallon Jug.</i></p>
<p>Antiseptic KC Leave on Conditioner</p>	<p>A broad spectrum leave on conditioner for the management of dermatological conditions responsive to 1% Ketoconazole and 2% Chlorhexidine. The proprietary formulation also contains a unique combination of chitosan and alkyl polyglucoside that helps to reduce microbial adhesion to the stratum corneum disrupting colonization on the skin surface. Chitosan is a natural biopolymer that creates a protective film on the skin and hair coat. <i>Available in 8oz. Bottle.</i></p>
<p>BioCalm™ Mousse</p>	<p>A mild local anesthetic, 1% Pramoxine, indicated for the management of skin irritation. BioCalm Mousse also contains mild cleansing bases for the gentle cleansing of the skin. Ceramide III helps support healthy skin. MicroSilver BG™ is a skin conditioning ingredient to help normalize skin flora. Formulated for the adjunctive topical management to provide temporary relief from itching. <i>Available in 200mL Pump Bottle.</i></p>
<p>BioCalm™ Shampoo</p>	<p>A mild local anesthetic agent, 1% Pramoxine, indicated for the management of skin irritation. Ceramide III helps support healthy skin. MicroSilver BG™ is a skin conditioning ingredient to help normalize skin flora. BioCalm Shampoo also contains mild cleansing bases for the gentle cleansing of the skin and essential fatty acids to nourish the skin. <i>Available in 8oz., 16oz. Bottles or Gallon Jug.</i></p>
<p>BioCalm™ Spray</p>	<p>A mild anesthetic, 2.4% Lidocaine, that soothes and helps to provide temporary relief of pain and itching caused by allergic conditions in dogs. MicroSilver BG™ is a skin conditioning ingredient to help normalize skin flora. Ceramide III in the formulation helps support healthy skin. Pemulen and Glycofilm provide an immediate soothing effect and a protective surface matrix. <i>Available in 2oz. Spray Bottle.</i></p>
<p>BioFlex™ ACTIVE Soft Chews</p>	<p>Supports Joint Mobility, General Wellness, Healthy Skin and Coat for Active Dogs. Advanced joint supplement containing BiovaPlex®, VitaBerry® and Hyaluronic Acid that provides nutritional building blocks to promote natural joint health and flexibility, plus a healthier skin and coat in active dogs. BiovaPlex®, derived from eggshell membrane, has beneficial nutrients for greater joint mobility, reduced shedding and a lustrous coat. VitaBerry Hi ORAC Fruit Blend is a source of natural antioxidants that promotes General Wellness (cardiovascular, mental and vision). Hyaluronic Acid helps in joint lubrication and collagen production. Also contains Glycosaminoglycans (GAGs) and MSM (Methylsulfonylmethane) which are the building blocks of cartilage and joint fluid, Creatine to support increased energy levels and Vitamins and Essential Fatty Acids to support overall joint health. <i>Available in 60ct., 120ct., or 240ct. Resealable Containers.</i></p>

<p>BioFlex™ ULTRA Soft Chews</p>	<p>Formulated for Advanced Joint Conditions. Advanced joint supplement containing new ULTRA ingredients for better support of joint function and flexibility. Ayuflex™ has natural analgesic and anti-edema properties. Hyaluronic Acid aids in joint lubrication and collagen production. UC-II® works with the immune system to help maintain joint integrity. Boswellia Serrata Extract provides COX-2 and LOX-5 enzyme inhibition properties. Also contains Glycosaminoglycans (GAGs) and MSM (Methylsulfonylmethane) which are the building blocks of cartilage and joint fluid, Creatine to support increased energy levels and Vitamins and Essential Fatty Acids to support overall joint health. <i>Available in 60ct., 120ct., or 240ct. Resealable Containers.</i></p>
