

Antiseptic KC Leave on Conditioner

TECHNICAL SPECIFICATIONS: A proprietary formulation of Chlorhexidine, Ketoconazole, Chitosan and alkyl polyglucoside for enhanced antiseptic activity.

PROPERTIES: Antiseptic KC Leave on Conditioner is a broad spectrum leave on conditioner for the management of dermatological conditions responsive to Ketoconazole and Chlorhexidine. The proprietary formulation also contains a unique combination of chitosan and alkyl polyglucoside that reduces microbial adhesion to the *stratum corneum* disrupting colonization on the skin surface. Chitosan is a natural biopolymer that creates a protective film on the skin and hair coat.

INGREDIENTS: Chlorhexidine Digluconate 2% and Ketoconazole 1%, Purified Water, Polyquatenuim-7, Glycerin, Cetyl Alcohol, Cetyl Stearyl Alcohol, PEG 40 Hydrogenated Castor Oil, Stearalkonium Chloride, Fragrance, Methylchloroisothiazolinone and Methylisothiazolinone, Chitosan, Alkyl Polyglucoside, Safflower Oil and Oatmeal.

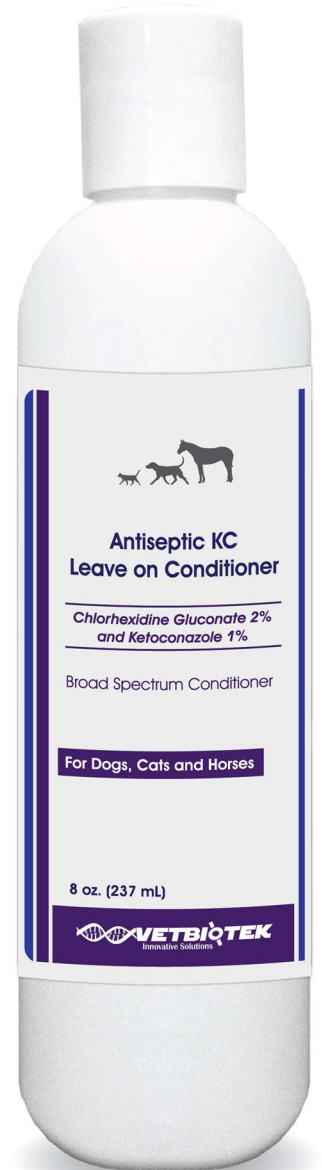

SPECIES: Dogs, Cats and Horses

DIRECTIONS FOR USE: Shake well before use. After shampooing or wetting the hair coat, apply a sufficient amount of conditioner to cover the affected areas or the entire hair coat along the back of the animal. Massage the Leave On conditioner on the skin and hair coat. The conditioner may be used in localized areas or between shampoos. May be used initially 2 to 3 times a week for four weeks, then reduce use to once a week, or as directed by your veterinarian.

PRECAUTIONS: For topical use on dogs, cats and horses. Avoid contact with eyes and mucous membranes. If eye contact occurs or skin irritation develops, rinse thoroughly with water, discontinue use and immediately consult a veterinarian.

PRESENTATION: 8oz

STORAGE: Store at room temperature. Protect from freezing.

AVAILABLE ONLY THROUGH LICENSED VETERINARIANS
