### **VETBIOTEK Launches BioHex™ Wipes**

**TAMPA, Fla. (Feb. 16, 2016)** – Largo-based VetBiotek, Inc. announces today that it has launched BioHex™ Wipes, an aqueous based Antiseptic cleansing formula. BioHex Wipes are indicated for the topical application on dogs, cats and horses in the management of topical skin conditions responsive to Chlorhexidine and Climbazole. The product is packaged 50 wipes per jar and is sold exclusively through Licensed Veterinarians.

“BioHex Wipes contain a proprietary, patent protected formulation of Chlorhexidine, Climbazole MicroSilver BG™ and Ceramide III, in an aqueous based Micellar Solution for enhanced broad-spectrum activity,” stated Vincent King, Vice President of Sales for VetBiotek. “MicroSilver has documented superior therapeutic advantages not available in the marketplace today, including its proven Antibiofilm activity. VetBiotek recently conducted research studies at an independent laboratory and these proved that topical products containing various concentrations of MicroSilver were effective at eradicating biofilm in an established *in vitro* model for *Staphylococcus pseudintermedius* and *Pseudomonas aeruginosa* organisms.”

Mr. King further stated, “In addition, this formulation contains Ceramide III which helps support healthy skin. Ceramide III, a skin identical molecule, supports the renewal of the skin’s natural protective layer and forms an effective transepidermal barrier against moisture loss. We are very excited about the potential benefits of this innovative product in the management of topical skin conditions in the veterinary channel.”

**About VetBiotek** – VetBiotek, Inc. is a privately held US company that specializes in developing, manufacturing and marketing dermatological and nutritional supplement products for the companion animal market. VetBiotek’s mission is to continually bring innovative solutions to the veterinary marketplace through research and development that will assist veterinarians in their management of disease states. VetBiotek sells its products exclusively to licensed veterinarians through a very select distribution network. VetBiotek is located in Largo, FL.
