

VetOMEGA 950™

ADVANCED JOINT SUPPORT, MOBILITY AND SKIN HEALTH

TECHNICAL SPECIFICATIONS: High Potency Omega-3 Formulation to Support Joint Health and Manage Skin Conditions in Dogs

PROPERTIES: An Innovative formulation containing high levels of Omega-3 (950 mg Omega-3 fatty acids per soft chew), UC-II® and High Molecular Weight (HMW) Hyaluronic Acid to support increased mobility, flexibility and promote healthy skin in dogs. High levels of omega-3 (EPA/DHA) reduce the production of potent mediators of inflammation and increases the production of the anti-inflammatory mediators through modifying the COX and 5-LOX enzyme pathways.

High Molecular Weight Hyaluronic Acid helps in joint lubrication and collagen production. UC-II® reduces further cartilage breakdown via immunomodulation to help maintain joint integrity.

ACTIVE INGREDIENTS: (Per 1 Soft Chew)

- Eicosapentaenoic Acid (EPA). 570 mg
- Docosahexaenoic Acid (DHA) 380 mg
- UC-II® Standardized Cartilage10 mg
- Total Collagen2.5 mg
- HMW Hyaluronic Acid.....10 mg

OTHER INGREDIENTS: Vegetable Starch, Glycerin, Pork Liver Powder, Molasses, Sucrose, Calcium Phosphate, Vegetable Fiber, Vegetable Shortening, Silica, Magnesium Stearate, Natural Antioxidants and Vitamin E.

WARNINGS: Not for human use. Keep out of reach of children. In case of accidental overdose, contact a veterinarian immediately.

DOSAGE INFORMATION:

Joint Care - The table below indicates the daily recommended number of chews, by weight range, for the healthy management of joints.

Weight Range (lbs.)	Joint Care (# of chews)
< 30	1
30 - 50	2
51 - 75	3
76 - 100	4
> 100	5

Skin Care - The recommended dosage for the daily management of skin conditions is 1 soft chew per 30 lbs. body weight.

The total daily dose may be split for ease of administration (e.g. total daily dose of 4 chews can be administered as 2 in the morning and 2 in the evening). It is recommended to administer the chews with food for maximum efficacy.

The National Research Council (NRC) safe dose for EPA + DHA combined is listed at 370 mg/Kg^{0.75} for dogs. This is equivalent to the following for dogs:

- 10 kg: 2081 mg
- 20 kg: 3499 mg
- 30 kg: 4743 mg
- 40 kg: 5885 mg
- 50 kg: 6957 mg

PRECAUTIONS: Not for use in animals on anticoagulant therapy or animals with bleeding disorders

STORAGE: Store at room temperature. Protect from freezing. Reclose the plastic lining and lid after each use.
